

ASHRAE JOURNAL 1997 EDITORIAL INDEX

Technical articles by author and subject

BY AUTHOR

Amundson, Christopher

Actuator Sizing. September supplement to ASHRAE Journal. P. 26.

Types of Control. With Gene R. Strehlow. September supplement to ASHRAE Journal. P. 14.

Ancevic, Mark

Intelligent Building System for Airport: 200,000 Point System Controls Everything from HVAC to Baggage. P. 31. November.

Andersen, Stephen O.

The Ozone Challenge: Industry and Government Learned to Work Together to Protect Environment. With E. Thomas Morehouse, Jr. P. 33. September.

Austin, Stephen B.

HVAC System Trend Analysis. P. 44. February.

Regression Analysis for Savings Verification. P. 57. October.

Baker, A.J.

Computational Fluid Dynamics: A Two-Edged Sword. With Richard M. Kelso, Elliott B. Gordon, Subrata Roy and Edward G. Schaub. P. 57. August.

Basso, Peter

Technology Award Case Study: Reliable, Efficient Systems for Biomedical Research Facility. P. 52. May.

Bentsen, Louis J.

Air Supply Systems for HVAC&R Controls. September supplement to ASHRAE Journal. P. 44.

Bhagwat, S.

Foaming Characteristics of HFC Refrigerants. With D.Y. Goswami, D.O. Shah, C.K. Jotshi, M. Leung and A.S. Gregory. P. 39. June.

Boody, Harry John

Technology Award Case Study: Total Systems Design Approach. P. 64. August.

Technology Award Case Study: Total System Approach Saves Energy. P. 52. November.

Clarke, Frederic

Physiological Effects of Smoke: Managing Escape. P. 47. March.

Coupland, James A.

Technology Award Case Study: Passive Solar-Heated Courthouse. P. 56. December.

Cowan, John D.

Measuring Energy Savings for Modernization Projects. With Steven Schiller. P. 60. August.

Coward, Jr., Charles W.

Unhoused (Plug/Plenum) Fans: Is Their Performance Predictable? P. 71. October.

Davies, Gary R.

Technology Award Case Study: Upgrading the Steam and Cooling System at a Machine Tool Manufacturing Complex. With James W. Drye. P. 57. March.

Domijan, Alexander, Jr.

Challenges in Electrical Power Measurements of Adjustable Speed Drives and Motors. With Dariusz Czarkowski. P. 32. February.

Dozier, Jack

EPA Program Impacts Office Zoning. With Robert J. Rose. P. 7. January.

Drye, James W.

Technology Award Case Study: Upgrading the Steam and Cooling System at a Machine Tool Manufacturing Complex. With Gary R. Davies. P. 57. March.

Dugard, Paul H.

The Montreal Protocol: An Exercise in International Environmental Diplomacy. P. 38. September.

Fairey, Philip W., III

Energy-Efficient Office Building Design for Florida's Hot and Humid Climate. With Danny S. Parker and Janet E.R. McIlvaine. P. 49. April.

Faramarzi, Ramin

Colder Temperatures in Display Cases: Meeting 1993 FDA Code Increases Energy Use and Refrigeration Load. With Michele Woodworth. P. 35. December.

Gelin, Lawrence J.

Active Noise Control: A Tutorial for HVAC Designers. P. 43. August.

Giblin, Kelly A.

The Memorial Tunnel Fire Ventilation Test Program. P. 26. February.

Gordon, Elliott B.

Computational Fluid Dynamics: A Two-Edged Sword. With A.J. Baker, Richard M. Kelso, Subrata Roy and Edward G. Schaub. P. 57. August.

Goswami, D.Y.

Foaming Characteristics of HFC Refrigerants. With D.O. Shah, C.K. Jotshi, S. Bhagwat, M. Leung and A.S. Gregory. P. 39. June.

Gregory, A.S.

Foaming Characteristics of HFC Refrigerants. With D.Y. Goswami, D.O. Shah, C.K. Jotshi, S. Bhagwat and M. Leung. P. 39. June.

Gupta, Vijay

An Overview of Thermal Envelopes in Federal Buildings. P. 55. February.

Hammel, Jay

The Sanitizing Effects of Desiccant-Based Cooling. With Brian Kovak and Richard P. Heimann. P. 60. April.

Harriman, Lew

Dehumidification and Cooling Loads from Ventilation Air. With Dean Plager and Douglas Kosar. P. 37. November.

Hegberg, Richard A.

Selecting Control and Balancing Valves in a Variable Flow System. P. 53. June.

Heimann, P. Richard

The Sanitizing Effects of Desiccant-Based Cooling. With Brian Kovak and Jay Hammel. P. 60. April.

Hittle, Douglas C.

Dynamic Response and Tuning. September supplement to ASHRAE Journal. P. 40.

Controlling Variable-Volume Systems. September supplement to ASHRAE Journal. P. 50.

Hoey, Peter

Dual, Dissimilar Boiler Flame Safety Controls. P. 45. December.

Holte, Donald E.

Technology for a Better Environment. P. 39. August.

Holton, John K.

Technology Award Case Study: Developing a Better Shell for Lab House. P. 46. November.

Houghton, David

Operating and Maintaining Rooftop Air Conditioners. P. 50. December.

Joffe, Michael A.

Real-Time Monitoring of Low Pollution Levels. With Oleg Kiskovich. P. 46. November.

Jotshi, C.K.

Foaming Characteristics of HFC Refrigerants. With D.Y. Goswami, D.O. Shah, S. Bhagwat, M. Leung and A.S. Gregory. P. 39. June.

Judge, Jim

Gas-Fired Desiccant System for Retail Super Center. With John W. Spears. P. 65. October.

Kelso, Richard M.

Computational Fluid Dynamics: A Two-Edged Sword. With A.J. Baker, Elliott B. Gordon, Subrata Roy and Edward G. Schaub. P. 57. August.

Kiskovich, Oleg

Real-Time Monitoring of Low Pollution Levels. With Michael A. Joffe. P. 46. November.

Kokayko, Michael J.

Technology Award Case Study: Dormitory Renovation Project Reduces Energy Use by 69%. P. 33. June.

Komor, Paul

Space Cooling Demands from Office Plug Loads: Less than One Watt per Square Foot. P. 41. December.

Kosar, Douglas

Dehumidification and Cooling Loads from Ventilation Air. With Lew Harriman and Dean Plager. P. 37. November.

Kovak, Brian

The Sanitizing Effects of Desiccant-Based Cooling. With P. Richard Heimann and Jay Hammel. P. 60. April.

Kumar, Sunil

Thermal Storage Using Form-Stable Phase-Change Materials. With M.

Tashfeen Syed, M. Karim Moallemi and Mehdi N. Naraghi. P. 45. May.

Lacey, D. Randall

Technology Award Case Study: Innovative Ventilation System for Animal Anatomy Laboratory. With Darin C. Smith. P. 65. April.

Ladeinde, Foluso

CFD Applications in the HVAC&R Industry. With Michelle D. Nearon. P. 44. January.

Leung, M.

Foaming Characteristics of HFC Refrigerants. With D.Y. Goswami, D.O. Shah, C.K. Jotshi, S. Bhagwat and A.S. Gregory. P. 39. June.

Lommers, C.A.

Technology Award Case Study: An Efficient Cold Store Facility. P. 44. September.

Lomonaco, Carol

Comfort and Control in the Workplace. With Dennis Miller. P. 50. September.

Manor, Leroy

Refrigeration Control Devices. September supplement to ASHRAE Journal. P. 47.

Marinelarena, Abraham

Weather and HVAC Design in Mexico. P. S-20. July.

Marinelarena, Abraham

Building Your Plant in Mexico. With Manuel Pérez and Phillip Rothstein. P. S-14. July.

Mathaudhu, Sukhdev S.

Technology Award Case Study: HVAC for Energy Showcase. P. 27. July.

McIlvaine, Janet E.R.

Energy-Efficient Office Building Design for Florida's Hot and Humid Climate. With Danny S. Parker and Philip W. Fairey, III. P. 49. April.

Millar, Donald J.

Legionnaires' Disease: Seeking Effective Prevention. With George K. Morris and Brian G. Shelton. P. 22. January.

Miller, Dennis

Comfort and Control in the Workplace.

With Carol Lomonaco. P. 50. September.

Moallemi, M. Karim

Thermal Storage Using Form-Stable Phase-Change Materials. With M. Tashfeen Syed, Sunil Kumar and Mehdi N. Naraghi. P. 45. May.

Morehouse, E. Thomas, Jr.

The Ozone Challenge: Industry and Government Learned to Work Together to Protect Environment. With Stephen O. Andersen. P. 33. September.

Morris, George K.

Legionnaires' Disease: Seeking Effective Prevention. With Donald J. Millar and Brian G. Shelton. P. 22. January.

Nagengast, Bernard

The History of Sealed Refrigeration Systems. P. S-44. January.

Naraghi, Mehdi N.

Thermal Storage Using Form-Stable Phase-Change Materials. With M. Tashfeen Syed, Sunil Kumar and M. Karim Moallemi. P. 45. May.

Nearon, Michelle D.

CFD Applications in the HVAC&R Industry. With Foluso Ladeinde. P. 44. January.

Newman, H. Michael

BACnet™ Q&A. September supplement to ASHRAE Journal. P. 54.

Olesen, Bjarne W.

International Development of Standards for Ventilation of Buildings. P. 31. April.

Parker, Danny S.

Energy-Efficient Office Building Design for Florida's Hot and Humid Climate. With Philip W. Fairey, III and Janet E.R. McIlvaine. P. 49. April.

Pérez, Manuel

Building Your Plant in Mexico. With Phillip Rothstein and Abraham Marinelarena. P. S-14. July.

Plager, Dean

Dehumidification and Cooling Loads from Ventilation Air. With Lew Harriman and Douglas Kosar. P. 37. November.

Rector, J. Douglas

Maintaining Gas Cooling Equipment. P. 33. May.

Reese, James A.

ASHRAE Standard 62R: How It Could Affect Segments of the Air-Conditioning Industry. P. 30. January.

Rishel, James B.

Use of Balance Valves in Chilled Water Systems. P. 45. June.

Roberts, Michael M.

The State of HVAC in Mexico. P. S-9. July.

Rosandich, Ryan

Understanding Controllers and Control Terminology. September supplement to *ASHRAE Journal*. P. 22.

Rose, Robert J.

EPA Program Impacts Office Zoning. With Jack Dozier. P. 7. January.

Rothstein, Phillip

Building Your Plant in Mexico. With Manuel Pérez and Abraham Marinelarena. P. S-14. July.

Rowland, F. Sherwood

Stratospheric Ozone Depletion: Identifying the Problem and the Solution. P. 29. September.

Roy, Subrata

Computational Fluid Dynamics: A Two-Edged Sword. With A.J. Baker, Elliott B. Gordon, Richard M. Kelso and Edward G. Schaub. P. 57. August.

Schaub, Edward G.

Computational Fluid Dynamics: A Two-Edged Sword. With A.J. Baker, Elliott B. Gordon, Richard M. Kelso and Subrata Roy. P. 57. August.

Schiller, Steven

Measuring Energy Savings for Modernization Projects. With John D. Cowan. P. 60. August.

Schowalter, Robert P.

Technology Award Case Study: Heat Pump System for Laundry. P. 77. October.

Settles, Gary

Visualizing Full-Scale Ventilation Airflows. P. 19. July.

Shah, D.O.

Foaming Characteristics of HFC Refrigerants. With D.Y. Goswami, C.K. Jotshi, S. Bhagwat, M. Leung and A.S. Gregory. P. 39. June.

Shavit, Gideon

Understanding the Control Loop. With Richard A. Wruck. September supplement to *ASHRAE Journal*. P. 35.

Shelton, Brian G.

Legionnaires' Disease: Seeking Effective Prevention. With Donald J. Millar and George K. Morris. P. 22. January.

Smith, Darin C.

Technology Award Case Study: Innovative Ventilation System for Animal Anatomy Laboratory. With D. Randall Lacey. P. 65. April.

Spears, John W.

Gas-Fired Desiccant System for Retail Super Center. With Jim Judge. P. 65. October.

Strehlow, Gene R.

Types of Control. With Christopher R. Amundson. September supplement to *ASHRAE Journal*. P. 14.

Syed, M. Tashfeen

Thermal Storage Using Form-Stable Phase-Change Materials. With Sunil Kumar, M. Karim Moallemi and Mehdi N. Naraghi. P. 45. May.

Tamney, John E.

Technology Award Case Study: Modernizing City Hall. P. 61. March.

Vick, Jim

Power for Electric/Electronic Control Systems. September supplement to *ASHRAE Journal*. P. 18.

Wheeler, Arthur E.

The V in Classroom HVAC. P. 48. October.

Wilsey, Charles A.

Alternative Water Treatment for Cooling Towers. P. 43. April.

Woodworth, Michele

Colder Temperatures in Display Cases: Meeting 1993 FDA Code Increases Energy Use and Refrigeration Load. With Ramin Faramarzi. P. 35. December.

Wruck, Richard A.

Understanding the Control Loop. With Gideon Shavit. September supplement to *ASHRAE Journal*. P. 35.

BY SUBJECT

Absorption

Technology Award Case Study: Upgrading the Steam and Cooling Systems at a Machine Tool Manufacturing Complex. Gary R. Davies, with James W. Drye. P. 57. March.

Maintaining Gas Cooling Equipment. J. Douglas Rector. P. 33. May.

Acoustics

Active Noise Control: A Tutorial for HVAC Designers. Lawrence J. Gelin. P. 43. August.

Actuators

Actuator Sizing. Christopher Amundson. P. 26. September supplement to *ASHRAE Journal*. P. 26.

Air Conditioner

Operating and Maintaining Rooftop Air Conditioners. David Houghton. P. 50. December.

Air Distribution

EPA Program Impacts Office Zoning. Robert J. Rose, with Jack Dozier. P. 7. January.

Air Supply Systems for HVAC&R Controls. Louis J. Bentsen. September supplement to *ASHRAE Journal*. P. 44.

Airflow

CFD Applications in the HVAC&R Industry. Foluso Ladeinde, with Michelle D. Nearon. P. 44. January.

Visualizing Full-Scale Ventilation Airflows. Gary Settles. P. 19. July.

Computational Fluid Dynamics: A Two-Edged Sword. A.J. Baker, with Richard M. Kelso, Elliott B. Gordon, Subrata Roy and Edward G. Schaub. P. 57. August.

Air Handling

Unhoused (Plug/Plenum) Fans: Is Their Performance Predictable? Charles W. Coward, Jr. P. 71. October.

Air Quality

International Development of Standards for Ventilation of Buildings. Bjarne W. Olesen. P. 31. April.

The Sanitizing Effects of Desiccant-Based Cooling. Brian Kovac, with P.

Richard Heimann and Jay Hammel. P. 60. April.

Technology Award Case Study: HVAC for Energy Showcase. Sukhdev S. Mathaudu. P. 27. July.

Gas-Fired Desiccant System for Retail Super Center. John W. Spears, with Jim Judge. P. 65. October.

The V in Classroom HVAC. Arthur E. Wheeler. P. 48. October.

Real-Time Monitoring for Low Pollution Levels: Immediate Results Offer Advantages. Oleg Kiskovich, with Michael A. Joffe. P. 46. November.

BACnet™

BACnet™ Issues and Answers. P. 59. May.

BACnet™ Q&A. Michael H. Newman. September supplement to ASHRAE Journal. P. 54.

Boiler

Technology Award Case Study: Dormitory Renovation Project Reduces Energy Use by 69%. Michael J. Kokayko. P. 33. June.

Dual, Dissimilar Boiler Flame Safety Controls. Peter Hoey. P. 41. December.

Building Automation

BACnet™ Issues and Answers. P. 59. May.

Actuator Sizing. Christopher Amundson. September supplement to ASHRAE Journal. P. 26.

Air Supply Systems for HVAC&R Controls. Louis J. Bentsen. September supplement to ASHRAE Journal. P. 44.

BACnet™ Q&A. Michael H. Newman. September supplement to ASHRAE Journal. P. 54.

Controlling Variable-Volume Systems. Douglas C. Hittle. September supplement to ASHRAE Journal. P. 50.

Dynamic Response and Tuning. Douglas C. Hittle. September supplement to ASHRAE Journal. P. 40.

Power for Electric/ Electronic Control Systems. Jim Vick. September supplement to ASHRAE Journal. P. 18.

Refrigeration Control Devices. Leroy Manor. September supplement to ASHRAE Journal. P. 47.

Types of Control. Gene R. Strehlow, with Christopher R. Amundson. September supplement to ASHRAE Journal. P. 14.

Understanding Controllers and Control Terminology. Ryan Rosandich. September supplement to ASHRAE Journal.

nal. P. 22.

Understanding the Control Loop. Gideon Shavit, with Richard A. Wruck. September supplement to ASHRAE Journal. P. 35.

Intelligent Building System for Airport: 200,000 Point System Controls Everything from HVAC to Baggage. Mark Ancevic. P. 31. November.

Building Code

Standard 90.1R: Issues and Answers. P. 65. June.

Building Management

Comfort and Control in the Workplace. Carol Lomonaco, with Dennis Miller. P. 50. September.

Intelligent Building System for Airport: 200,000 Point System Controls Everything from HVAC to Baggage. Mark Ancevic. P. 31. November.

Burner

Dual, Dissimilar Boiler Flame Safety Controls. Peter Hoey. P. 41. December.

Central Plant

Technology Award Case Study: Modernizing City Hall. John E. Tamney. P. 61. March.

Technology Award Case Study: Upgrading the Steam and Cooling Systems at a Machine Tool Manufacturing Complex. Gary R. Davies, with James W. Drye. P. 57. March.

Technology Award Case Study: Reliable, Efficient Systems for Biomedical Research Facility. Peter Basso. P. 52. May.

Chillers

Technology Award Case Study: Modernizing City Hall. John E. Tamney. P. 61. March.

Maintaining Gas Cooling Equipment. J. Douglas Rector. P. 33. May.

Selecting Control and Balancing Valves in a Variable Flow System. Richard A. Hegberg. P. 53. June.

Use of Balance Valves in Chilled Water Systems. James B. Rishel. P. 45. June.

Chlorofluorocarbons

The Montreal Protocol: An Exercise in International Environmental Diplomacy. Paul H. Dugard. P. 38. September.

The Ozone Challenge: Industry and Government Learned to Work Together

to Protect Environment. Stephen O. Andersen, with E. Thomas Morehouse, Jr. P. 33. September.

Stratospheric Ozone Depletion: Identifying the Problem and the Solution. Sherwood F. Rowland. P. 29. September.

Cold Storage

Technology Award Case Study: An Efficient Cold Store Facility. C.A. Lommers. P. 44. September.

Colder Temperatures in Display Cases: Meeting 1993 FDA Code Increases Energy Use and Refrigeration Load. Ramin Faramarzi, with Michele Woodworth. P. 35. December.

Commissioning

HVAC System Trend Analysis. Stephen B. Austin. P. 44. February.

Compressor

The History of Sealed Refrigeration Systems. Bernard Nagengast. P. S-44. January.

Foaming Characteristics of HFC Refrigerants. D.Y. Goswami, with D.O. Shah, C.K. Jotshi, S. Bhagwat, M. Leung and A.S. Gregory. P. 39. June.

Computational Fluid Dynamics

CFD Applications in the HVAC&R Industry. Foluso Ladeinde, with Michelle D. Nearon. P. 44. January.

Computational Fluid Dynamics: A Two-Edged Sword. A.J. Baker, with Richard M. Kelso, Elliott B. Gordon, Subrata Roy and Edward G. Schaub. P. 57. August.

Contaminants

Technology Award Case Study: Innovative Ventilation System for Animal Anatomy Laboratory. Randall D. Lacey, with Darin C. Smith. P. 65. April.

Controls

BACnet™ Issues and Answers. P. 59. May.

Actuator Sizing. Christopher Amundson. September supplement to ASHRAE Journal. P. 26.

Air Supply Systems for HVAC&R Controls. Louis J. Bentsen. September supplement to ASHRAE Journal. P. 44.

Controlling Variable-Volume Systems. Douglas C. Hittle. September supplement to ASHRAE Journal. P. 50.

Dynamic Response and Tuning. Douglas C. Hittle. September supplement to ASHRAE Journal. P. 40.

Power for Electric/ Electronic Control Systems. Jim Vick. September supplement to ASHRAE Journal. P. 18.

Understanding the Control Loop. Gideon Shavit, with Richard A. Wruck. September supplement to ASHRAE Journal. P. 35.

Intelligent Building System for Airport: 200,000 Point System Controls Everything from HVAC to Baggage. Mark Ancevic. P. 31. November.

Cooling Towers

Legionnaires' Disease: Seeking Effective Prevention. Donald J. Millar, with George K. Morris and Brian G. Shelton. P. 22. January.

Alternative Water Treatment for Cooling Towers. Charles A. Wilsey. P. 43. April.

Corrosion

Alternative Water Treatment for Cooling Towers. Charles A. Wilsey. P. 43. April.

Desiccant

The Sanitizing Effects of Desiccant-Based Cooling. Brian Kovac, with P. Richard Heimann and Jay Hammel. P. 60. April.

Gas-Fired Desiccant System for Retail Super Center. John W. Spears, with Jim Judge. P. 65. October.

Design

Building Your Plant in Mexico. Manuel Pérez, with Phillip Rothstein and Abraham Marinelarena. P. S-14. July.

The State of HVAC in Mexico. Michael M. Roberts. P. S-9. July.

Diffusion

Technology Award Case Study: Innovative Ventilation System for Animal Anatomy Laboratory. Randall D. Lacey, with Darin C. Smith. P. 65. April.

Drives

Challenges in Electrical Power Measurements of Adjustable Speed Drives and

Motors. Alexander Domijan, Jr., with Dariusz Czarkowski. P. 32. February.

Duct

Active Noise Control: A Tutorial for HVAC Designers. Lawrence J. Gelin. P. 43. August.

Economics

ASHRAE Standard 62R: How It Could Affect Segments of the Air-Conditioning Industry. James A. Reese. P. 30. January.

EPA Program Impacts Office Zoning. Robert J. Rose, with Jack Dozier. P. 7. January.

An Overview of Thermal Envelopes in Federal Buildings. Vijay Gupta. P. 55. February.

Measuring Energy Savings for Modernization Projects. John D. Cowan, with Steven Schiller. P. 60. August.

Electric

Challenges in Electrical Power Measurements of Adjustable Speed Drives and Motors. Alexander Domijan, Jr., with Dariusz Czarkowski. P. 32. February.

Power for Electric/ Electronic Control Systems. Jim Vick. September supplement to ASHRAE Journal. P. 18.

Energy

Standard 90.1R: Issues and Answers. P. 65. June.

Space Cooling Demands from Office Plug Loads: Less than One Watt per Square Foot. Paul Komor. P. 41. December.

Energy Awards

Technology Award Case Study: Modernizing City Hall. John E. Tamney. P. 61. March.

Technology Award Case Study: Upgrading the Steam and Cooling Systems at a Machine Tool Manufacturing Complex. Gary R. Davies, with James W. Drye. P. 57. March.

Technology Award Case Study: Innovative Ventilation System for Animal Anatomy Laboratory. Randall D. Lacey, with Darin C. Smith. P. 65. April.

Technology Award Case Study: Reliable, Efficient Systems for Biomedical Research Facility. Peter Basso. P. 52. May.

Technology Award Case Study: Dormitory Renovation Project Reduces En-

ergy Use by 69%. Michael J. Kokayko. P. 33. June.

Technology Award Case Study: HVAC for Energy Showcase. Sukhdev S. Mathaudu. P. 27. July.

Technology Award Case Study: Total Systems Design Approach. Harry John Boody. P. 64. August.

Technology Award Case Study: An Efficient Cold Store Facility. C.A. Lommers. P. 44. September.

Technology Award Case Study: Heat Pump System for Laundry. Robert P. Schowalter. P. 77. October.

Technology Award Case Study: Total Systems Approach Saves Energy. Harry John Boody. P. 52. November.

Technology Award Case Study: Passive Solar-Heated Courthouse. James A. Coupland. P. 56. December.

Energy Calculation

Measuring Energy Savings for Modernization Projects. John D. Cowan, with Steven Schiller. P. 60. August.

Dehumidification and Cooling Loads from Ventilation. Lew Harriman, with Dean Plager and Douglas Kosar. P. 37. November.

Energy Conservation

EPA Program Impacts Office Zoning. Robert J. Rose, with Jack Dozier. P. 7. January.

An Overview of Thermal Envelopes in Federal Buildings. Vijay Gupta. P. 55. February.

HVAC System Trend Analysis. Stephen B. Austin. P. 44. February.

Energy-Efficient Office Building Design for Florida's Hot and Humid Climate. Danny S. Parker, with Philip Fairey, III, and Janet E.R. McIlvaine. P. 49. April.

Technology Award Case Study: HVAC for Energy Showcase. Sukhdev S. Mathaudu. P. 27. July.

Envelope

An Overview of Thermal Envelopes in Federal Buildings. Vijay Gupta. P. 55. February.

Technology Award Case Study: Developing a Better Shell for Lab House. John K. Holton. P. 56. November.

Fans

Unhoused (Plug/Plenum) Fans: Is Their Performance Predictable? Charles W. Coward, Jr. P. 71. October.

Fenestration

An Overview of Thermal Envelopes in

Federal Buildings. Vijay Gupta. P. 55. February.

Filtration

Technology Award Case Study: Total Systems Approach Saves Energy. Harry John Boody. P. 52. November.

Fire Safety

The Memorial Tunnel Fire Ventilation Test Program. Kelly A. Giblin. P. 26. February.

Physiological Effects of Smoke: Managing Escape. Frederic Clarke. P. 47. March.

Food

Colder Temperatures in Display Cases: Meeting 1993 FDA Code Increases Energy Use and Refrigeration Load. Ramin Faramarzi with Michele Woodworth. P. 35. December.

Gas

Maintaining Gas Cooling Equipment. J. Douglas Rector. P. 33. May.

Gas Fired

Gas-Fired Desiccant System for Retail Super Center. John W. Spears, with Jim Judge. P. 65. October.

Greenhouse Effect

The Montreal Protocol: An Exercise in International Environmental Diplomacy. Paul H. Dugard. P. 38. September.

The Ozone Challenge: Industry and Government Learned to Work Together to Protect Environment. Stephen O. Andersen, with E. Thomas Morehouse, Jr. P. 33. September.

Stratospheric Ozone Depletion: Identifying the Problem and the Solution. Sherwood F. Rowland. P. 29. September.

HCFCs

The Montreal Protocol: An Exercise in International Environmental Diplomacy. Paul H. Dugard. P. 38. September.

The Ozone Challenge: Industry and Government Learned to Work Together to Protect Environment. Stephen O. Andersen, with E. Thomas Morehouse, Jr. P. 33. September.

Stratospheric Ozone Depletion: Identifying the Problem and the Solution. Sherwood F. Rowland. P. 29. September.

Heat Exchange

Thermal Storage Using Form-Stable Phase-Change Materials. M. Tashfeen Syed, with Sunil Kumar, M. Karim Moallemi and Mehdi N. Naraghi. P. 45. May.

Heat Pumps

Technology Award Case Study: Total Systems Design Approach. Harry John Boody. P. 64. August.

Technology Award Case Study: Heat Pump System for Laundry. Robert P. Schowalter. P. 77. October.

Heat Recovery

Technology Award Case Study: Total Systems Design Approach. Harry John Boody. P. 64. August.

Technology Award Case Study: Heat Pump System for Laundry. Robert P. Schowalter. P. 77. October.

Technology Award Case Study: Developing a Better Shell for Lab House. John K. Holton. P. 56. November.

Hermetic

The History of Sealed Refrigeration Systems. Bernard Nagengast. P. S-44. January.

History

The History of Sealed Refrigeration Systems. Bernard Nagengast. P. S-44. January.

Hospitals

Technology Award Case Study: Reliable, Efficient Systems for Biomedical Research Facility. Peter Basso. P. 52. May.

Hot Water

Technology Award Case Study: Heat Pump System for Laundry. Robert P. Schowalter. P. 77. October.

Human Physiology

Physiological Effects of Smoke: Managing Escape. Frederic Clarke. P. 47. March.

Humidity

Energy-Efficient Office Building Design for Florida's Hot and Humid Climate. Danny S. Parker, with Philip W. Faurey, III and Janet E.R. McIlvaine. P. 49. April.

Hydronic

Technology Award Case Study: Dormitory Renovation Project Reduces En-

ergy Use by 69%. Michael J. Kokayko. P. 33. June.

Technology Award Case Study: Passive Solar-Heated Courthouse. James A. Coupland. P. 56. December.

Industrial

Technology Award Case Study: Upgrading the Steam and Cooling Systems at a Machine Tool Manufacturing Complex. Gary R. Davies, with James W. Drye. P. 57. March.

Technology Award Case Study: Total Systems Design Approach. Harry John Boody. P. 64. August.

Laboratory

Technology Award Case Study: Innovative Ventilation System for Animal Anatomy Laboratory. Randall D. Lacey, with Darin C. Smith. P. 65. April.

Technology Award Case Study: Reliable, Efficient Systems for Biomedical Research Facility. Peter Basso. P. 52. May.

Legionnaires' Disease

Legionnaires' Disease: Seeking Effective Prevention. Donald J. Millar, with George K. Morris and Brian G. Shelton. P. 22. January.

Load Calculation

Dehumidification and Cooling Loads from Ventilation Air. Lew Harriman, with Dean Plager and Douglas Kosar. P. 37. November.

Space Cooling Demands from Office Plug Loads: Less than One Watt per Square Foot. Paul Komor. P. 41. December.

Lubrication

Foaming Characteristics of HFC Refrigerants. D.Y. Goswami, with D.O. Shah, C.K. Jotshi, S. Bhagwat, M. Leung and A.S. Gregory. P. 39. June.

Maintenance

Maintaining Gas Cooling Equipment. J. Douglas Rector. P. 33. May.

Operating and Maintaining Rooftop Air Conditioners. David Houghton. P. 50. December.

Microbiology

Legionnaires' Disease: Seeking Effective Prevention. Donald J. Millar, with George K. Morris and Brian G. Shelton. P. 22. January.

The Sanitizing Effects of Desiccant-Based Cooling. Brian Kovac, with P. Richard Heimann and Jay Hammel. P. 60. April.

Modeling

CFD Applications in the HVAC&R Industry. Foluso Ladeinde, with Michelle D. Nearon. P. 44. January.

The Memorial Tunnel Fire Ventilation Test Program. Kelly A. Giblin. P. 26. February.

Visualizing Full-Scale Ventilation Airflows. Gary Settles. P. 19. July.

Computational Fluid Dynamics: A Two-Edged Sword. A.J. Baker, with Richard M. Kelso, Elliott B. Gordon, Subrata Roy and Edward G. Schaub. P. 57. August.

Measuring Energy Savings for Modernization Projects. John D. Cowan, with Steven Schiller. P. 60. August.

Regression Analysis for Savings Verification. Stephen B. Austin. P. 57. October.

Monitoring

Legionnaires' Disease: Seeking Effective Prevention. Donald J. Millar, with George K. Morris and Brian G. Shelton. P. 22. January.

HVAC System Trend Analysis. Stephen B. Austin. P. 44. February.

Real-Time Monitoring for Low Pollution Levels: Immediate Results Offer Advantages. Oleg Kiskovich, with Michael A. Joffe. P. 46. November.

Dual, Dissimilar Boiler Flame Safety Controls. Peter Hoey. P. 45. December.

Motors

Challenges in Electrical Power Measurements of Adjustable Speed Drives and Motors. Alexander Domijan, Jr., with Dariusz Czarkowski. P. 32. February.

Noise

Active Noise Control: A Tutorial for HVAC Designers. Lawrence J. Gelin. P. 43. August.

Office Building

EPA Program Impacts Office Zoning. Robert J. Rose, with Jack Dozier. P. 7. January.

Energy-Efficient Office Building Design for Florida's Hot and Humid Climate. Danny S. Parker, with Philip W. Fahey, III and Janet E.R. McIlvaine. P. 49. April.

Technology Award Case Study: HVAC

for Energy Showcase. Sukhdev S. Mathaudu. P. 27. July.

Comfort and Control in the Workplace. Carol Lomonaco, with Dennis Miller. P. 50. September.

Space Cooling Demands from Office Plug Loads: Less than One Watt per Square Foot. Paul Komor. P. 41. December.

Pollution

Real-Time Monitoring for Low Pollution Levels: Immediate Results Offer Advantages. Oleg Kiskovich, with Michael A. Joffe. P. 46. November.

Productivity

Comfort and Control in the Workplace. Carol Lomonaco, with Dennis Miller. P. 50. September.

Public Assembly

Technology Award Case Study: Modernizing City Hall. John E. Tamney. P. 61. March.

Pumps

Selecting Control and Balancing Valves in a Variable Flow System. Richard A. Hegberg. P. 53. June.

Use of Balance Valves in Chilled Water Systems. James B. Rishel. P. 45. June.

Refrigerant

Foaming Characteristics of HFC Refrigerants. D.Y. Goswami, with D.O. Shah, C.K. Jotshi, S. Bhagwat, M. Leung and A.S. Gregory. P. 39. June.

Refrigeration

The History of Sealed Refrigeration Systems. Bernard Nagengast. P. S-44. January.

Technology Award Case Study: An Efficient Cold Store Facility. C.A. Lommers. P. 44. September.

Refrigeration Control Devices. Leroy Manor. September supplement to ASHRAE Journal. P. 47.

Colder Temperatures in Display Cases: Meeting 1993 FDA Code Increases Energy Use and Refrigeration Load. Ramin Faramarzi, with Michele Woodworth. P. 35. December.

Residential

Technology Award Case Study: Total Systems Approach Saves Energy. Harry John Boody. P. 52. November.

Safety

Dual, Dissimilar Boiler Flame Safety

Controls. Peter Hoey. P. 45. December.

Sampling

Real-Time Monitoring for Low Pollution Levels: Immediate Results Offer Advantages. Oleg Kiskovich, with Michael A. Joffe. P. 46. November.

Schlieren Technique

Visualizing Full-Scale Ventilation Airflows. Gary Settles. P. 19. July.

School

Technology Award Case Study: Dormitory Renovation Project Reduces Energy Use by 69%. Michael J. Kokayko. P. 33. June.

The V in Classroom HVAC. Arthur E. Wheeler. P. 48. October.

Smoke Control

The Memorial Tunnel Fire Ventilation Test Program. Kelly A. Giblin. P. 26. February.

Physiological Effects of Smoke: Managing Escape. Frederic Clarke. P. 47. March.

Software

CFD Applications in the HVAC&R Industry. Foluso Ladeinde, with Michelle D. Nearon. P. 44. January.

Computational Fluid Dynamics: A Two-Edged Sword. A.J. Baker, with Richard M. Kelso, Elliott B. Gordon, Subrata Roy and Edward G. Schaub. P. 57. August.

Solar

Energy-Efficient Office Building Design for Florida's Hot and Humid Climate. Danny S. Parker, with Philip W. Fahey, III and Janet E.R. McIlvaine. P. 49. April.

Technology Award Case Study: Passive Solar-Heated Courthouse. James A. Coupland. P. 56. December.

Standards

ASHRAE Standard 62R: How It Could Affect Segments of the Air-Conditioning Industry. James A. Reese. P. 30. January.

International Development of Standards for Ventilation of Buildings. Bjarne W. Olesen. P. 31. April.

BACnet™ Issues and Answers. P. 59. May.

Standard 90.1R: Issues and Answers. P. 65. June.

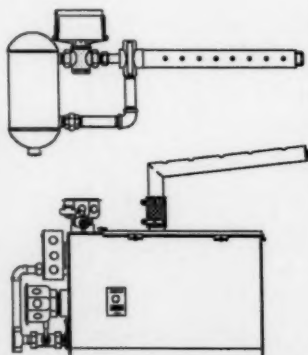

PURE Humidifier Company

**"The PURE choice
for humidification"**

Offers a complete line of direct **Steam Injection, Steam Heat Exchanger and Electric Self-Contained Humidifiers** for industrial and commercial applications

- Can be used with Hard, Soft, RO and DI water
- Stainless steel construction
- 2-2000 Lb/Hr Capacity
- Compatible with building management control systems
- We specialize in custom injection tube assemblies for fast dissipation
- Complete in house testing facility

Pure Humidifier Company

4035 Norex Drive
Chaska, MN 55318
Ph: (612) 368-9335
Fax: (612) 368-9338

Steam

Technology Award Case Study: Upgrading the Steam and Cooling Systems at a Machine Tool Manufacturing Complex. Gary R. Davies, with James W. Drye. P. 57. March.

Supermarket

Colder Temperatures in Display Cases: Meeting 1993 FDA Code Increases Energy Use and Refrigeration Load. Ramin Faramarzi, with Michele Woodworth. P. 35. December.

Technology Awards

Technology Award Case Study: Modernizing City Hall. John E. Tamney. P. 61. March.

Technology Award Case Study: Upgrading the Steam and Cooling Systems at a Machine Tool Manufacturing Complex. Gary R. Davies, with James W. Drye. P. 57. March.

Technology Award Case Study: Innovative Ventilation System for Animal Anatomy Laboratory. Randall D. Lacey, with Darin C. Smith. P. 65. April.

Technology Award Case Study: Reliable, Efficient Systems for Biomedical Research Facility. Peter Basso. P. 52. May.

Technology Award Case Study: Dormitory Renovation Project Reduces Energy Use by 69%. Michael J. Kokayko. P. 33. June.

Technology Award Case Study: HVAC for Energy Showcase. Sukhdev S. Mathaudu. P. 27. July.

Technology Award Case Study: Total Systems Design Approach. Harry John Boody. P. 64. August.

Technology Award Case Study: An Efficient Cold Store Facility. C.A. Lommers. P. 44. September.

Technology Award Case Study: Heat Pump System for Laundry. Robert P. Schowalter. P. 77. October.

Technology Award Case Study: Total Systems Approach Saves Energy. Harry John Boody. P. 52. November.

Technology Award Case Study: Developing a Better Shell for Lab House. John K. Holton. P. 56. November.

Technology Award Case Study: Passive Solar-Heated Courthouse. James A. Coupland. P. 56. December.

Thermal Storage

Thermal Storage Using Form-Stable Phase-Change Materials. M. Tashfeen Syed, with Sunil Kumar, M. Karim Moallemi and Mehdi N. Naraghi. P. 45. May.

Tunnel

The Memorial Tunnel Fire Ventilation Test Program. Kelly A. Giblin. P. 26. February.

Valves

Selecting Control and Balancing Valves in a Variable Flow System. Richard A. Hegberg. P. 53. June.

Use of Balance Valves in Chilled Water Systems. James B. Rishel. P. 45. June

Variable Volume

Controlling Variable-Volume Systems. Douglas C. Hittle. September Supplement to ASHRAE Journal. P. 50.

Ventilation

ASHRAE Standard 62R: How It Could Affect Segments of the Air-Conditioning Industry. James A. Reese. P. 30. January.

International Development of Standards for Ventilation of Buildings. Bjarne W. Olesen. P. 31. April.

Technology Award Case Study: Innovative Ventilation System for Animal Anatomy Laboratory. Randall D. Lacey, with Darin C. Smith. P. 65. April.

Technology Award Case Study: Dormitory Renovation Project Reduces Energy Use by 69%. Michael J. Kokayko. P. 33. June.

Visualizing Full-Scale Ventilation Airflows. Gary Settles. P. 19. July.

The V in Classroom HVAC. Arthur E. Wheeler. P. 48. October.

Dehumidification and Cooling Loads from Ventilation Air. Lew Harriman, with Dean Plager and Douglas Kossar. P. 37. November.

Viscosity

Foaming Characteristics of HFC Refrigerants. D.Y. Goswami, with D.O. Shah, C.K. Jotshi, S. Bhagwat, M. Leung and A.S. Gregory. P. 39. June.

Water Treatment

Legionnaires' Disease: Seeking Effective Prevention. Donald J. Millar, with George K. Morris and Brian G. Shelton. P. 22. January.

Alternative Water Treatment for Cooling Towers. Charles A. Wilsey. P. 43. April.

Weather

The State of HVAC in Mexico. Michael M. Roberts. P. S-9. July.

Windows

Technology Award Case Study: Passive Solar-Heated Courthouse. James A. Coupland. P. 56. December. ■
